

Assessment Regions

Regions are the locations for the sites in your system. Think of them almost as a reporting or grouping entity. Some examples would be state, county, or any grouping you wish to have. Sub Regions are a further breakdown of the Regions and are optional.

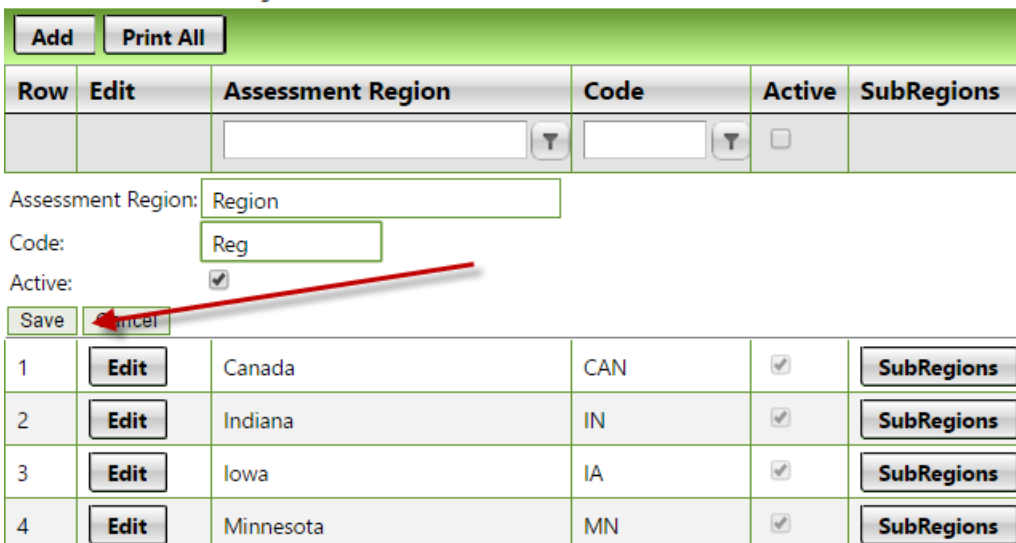

The screenshot shows the MetaFarms software interface. The top navigation bar includes tabs for Favorites, Sow, Feed, Finish, Sales, Finance, Assurance (selected), Analytics, and Change Company. The left sidebar shows a tree view with 'Assessment Regions' highlighted. The main content area is divided into three sections: 'Data Entry' (with links for Schedule Assessments, Enter Assessment Results, and Review Corrective Actions), 'Reports' (with a 'Setup' sub-tab selected), and 'Assurance Attributes' (with a list of attributes including Assessment Comments, Assessment Regions, Assessment Stages, Assessment Types, Assessment Version, Assurance Type, Auditor, and Corrective Action Category). The 'Forms Setup' section includes Assessment Form Setup and Assessment Site Setup. The 'Company Attributes' section includes Producers/Sites/Barns*, Production Calendar*, Personnel Setup, Assign Personnel, and Units of Measure.

Your data entry grid will come up.

To add a new region, click the Add button. Fill out the grid and click Save. The code must be unique.

The screenshot shows the 'Assessment Regions' data entry grid. At the top, there are 'Add' and 'Print All' buttons. The grid has columns for Row, Edit, Assessment Region, Code, Active, and SubRegions. Below the grid, there are input fields for 'Assessment Region', 'Code', and 'Active', along with 'Save' and 'Cancel' buttons. A red arrow points to the 'Add' button. The grid contains the following data:
