

## Compliance

Compliance is a way to track the Prop 12 compliance of sows and pigs from mating to wean and moving pigs into a finish group. A few things to note to use this process are:

- Fosters must be done between two prop 12 compliant sows or wean pigs will not be considered compliant.
  - There is no warning for fostering between a compliant a non-compliant sow. Customers must keep track of this themselves.
- To track compliance for pigs moving into a finish or nursery group, use the Create Movements from Unassigned events menu item.

There is setup required prior to being able to use Compliance to track sows.

First the Compliance Flag must be Setup in Sow flags:

- Sow > Setup > Attributes > Sow Flags
- Add a Sow Flag to the table
- Make sure the Compliance check box is ticked.

Table Name: Sow Flags

Row	Edit	*Name	*Code	Compliance	Active
1	<a href="#">Edit</a>	Non Prop 12	NP12	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2	<a href="#">Edit</a>	Prop 12	P12	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>

Page size: 50 2 items in 1 pages

Next, make sure your mating event has the option to record a Sow Flag both on Sow Mobile and on the Web, if it does not contact MetaFarms support so it can be added.

For a Sow to be considered compliant, the flag **MUST** be applied to the Mating event.

Save (Ctrl-S) Expand Entry Columns

Event: Mating

Row #	Date	Sow ID	Stall	Type	Boar ID/Al Dose	Semen Age	Semen Batch	Tech	Time of Day	Weight (lb)	Backfat	Breeding Score	Comments	Watch List?	Watch List Reason	Sow Flag	History
1				1										<input type="checkbox"/>			

Once a sow has been recorded as compliant with the Sow Flag, she will stay compliant until she is weaned, found open, has a negative pregnancy check or a heat no service.

Compliant wean pigs can be tracked using the Data Entry Review report (run in MetaFarms Full layout)

Start Date: 11/01/2024

Other reports where compliance status has been added are:

- Data Entry Review
- Sow Status List
- Move in List
- Farrowing Performance
- Farrowing Rate
- Farrowing Chart
- Estrus Analysis
- System Sow performance monitor
- Sow Physical Count
- Sow Cards
- Any Breed Batch version of the above reports

**\*Please note that to see compliance flag or status you must run each report in the MetaFarms Full Layout\***

To run Sow Cards, based on compliant or non-compliant Sows, use the compliance selection on the run report screen here:

Sow Cards

Sow Complex: ☐

Sow Unit: ☐

Selection Type: All

Format: 1 card per page with feed (data form & history)
