

Create Movement for Unassigned Events

Create Movements for Unassigned Events is used for creating a movement when the data entry was done via Sow Card Data Entry or Sow Individual Event Entry. The most common use is for moving the pigs weaned via Sow Card Data Entry to either a Group or Customer.

A movement grid and event details will come up below. Fill in the highlighted areas and click the Create Movement button.

Event: Gilt/Sow Arrivals

Producer: Loriannes Sow Farm

Site: Huckleberry Sow

Event Date: 8/22/2024 YR/WK: 2024/34 (m/d/yyyy)
