# Feed Slide

Feed Slide can be found on the Feed Management Setup tab under Feed Mills. Feed Slide is a budget adjustment look up table you create based on your nutritionist recommendations. This adjusts the budget of first rations fed to a group, such as N1, or F1, when placing pigs at a lower or higher starting weight than what is expected for entry to the first ration. The weight will come from the movements into the group. Pounds will be added if the pigs come in lighter than the budget or pounds will be subtracted if they come in heavier. Feed Slide should be set up prior to setting up Feed Budgets and is set up on the first diet of the budget only.

To add a Feed Slide, click the Add button. Enter the information and click Save.

Once saved, you will need to add the details. Click Details. Add the adjustment information and Save. Note the Feed per Animal is the adjusted amount, plus or minus, not the total amount to be fed.

Add					
Row	Edit	*Start Wt	*End Wt	*Feed Per Animal	*Days on Feed
1	Edit	7.00	7.99	0.90	1

*Start Wt: 7.00
*End Wt: 7.99
*Feed Per Animal: 0.90
*Days on Feed: 1
Save Cancel

A typical Nursery Slide would look like this:

Add					
Row	Edit	*Start Wt	*End Wt	*Feed Per Animal	*Days on Feed
1	Edit	7.00	7.99	0.90	1
2	Edit	8.00	8.99	0.80	1
3	Edit	9.00	9.99	0.70	1
4	Edit	10.00	10.99	0.60	1
5	Edit	11.00	11.99	0.50	1
6	Edit	12.00	12.99	0.40	1
7	Edit	13.00	13.99	0.30	1
8	Edit	14.00	14.99	0.20	1
9	Edit	15.00	15.99	0.10	1
