Column A - Is the site code and is required. Format for this field can be found by going to Sow > Setup > Producers/Sites/Barns - Search for the site and use the **Site Code** column.

Column B - Is the sow tag ID and is required.

Column C - Is the date and is required. Date format must be in the format of the example above.

Column D - Is the location code. It is optional. Format for this field can be found by going to Sow > Setup > Crate > Company Attributes > Crate Entry or Stall Entry - Search for the site and use the ***Code** column.

Column E - Is the body condition score. It is optional and must be an integer.

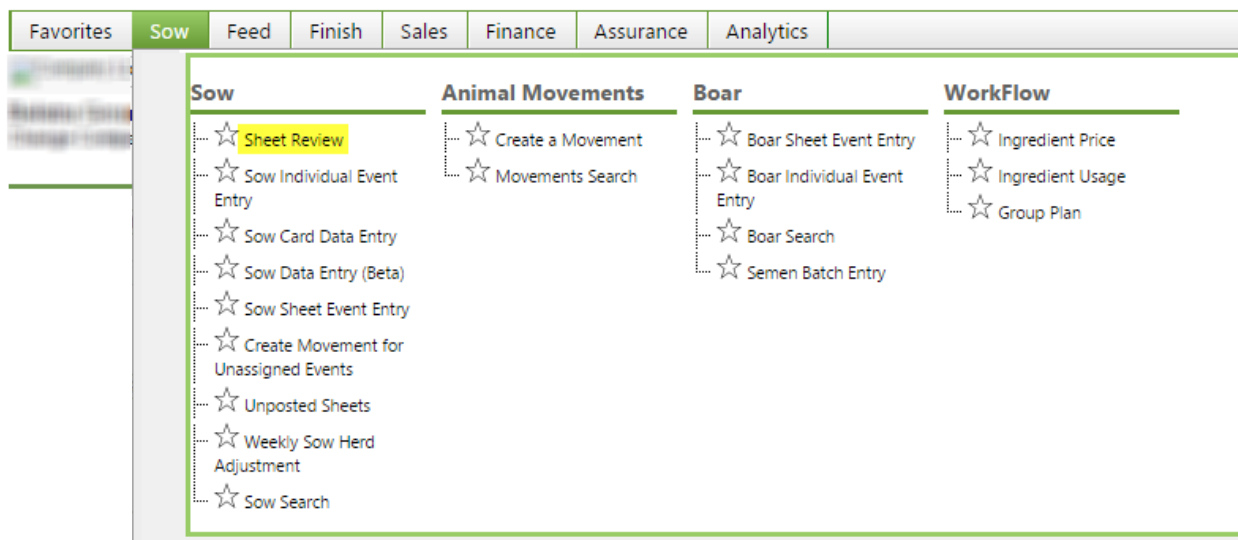

Column F - Is the backfat. It is optional and must be entered in the same format as the example.

Column G - Is the weight. It is optional and must be entered in the same format as the example.

Column H - Is the Sow Flag code if your company uses Sow Flags, they can be found by going to Sow > Setup > Attributes > Sow Flags. Use the ***Code** column.

Column I - is for any additional comments.

Once you have your import file created, you are ready to import. Go to the Sow menu and select Sheet Review.

Producer:
 Site:
 * Event Date: YR/WK: 2023/46 (m/d/yyyy)
 Applied Date: (m/d/yyyy)
 * Sheet Name:
 Rows:

Sheet locationsEXAMPLE2.xlsx is being posted.
Please refer to the popup window for details.
You may now continue data entry or other applications.
You do not need to wait for posting to complete.

After the sheet has been posted, you can search other posted sheets or go back to sheet review and continue your data entry.

Note: If you have errors in your data grid, you can still Save and Post those that do not contain errors. You can then come back later to correct those errors. See Sheet Review.
