

Mortality Location Entry

Group Location Entry can be used to enter mortalities for groups at the Room and Pen level. Room and Pen level are not required – meaning you can also enter mortalities at the group level only. It can also be used to Search the mortalities for any given group using the Search button.

You can search by the Group Name or select the group from the dropdown by choosing the Producer, Site, and Barn of the group you want to enter for. You can also include a date range in your search.

Search Group Mortality			
Group Name:	<input type="text"/>	Producer:	<input type="text" value="Brandt"/>
Status:	<input type="text" value="Active"/>	Site:	<input type="text" value="Brandt North"/>
Starting Date:	<input type="text"/>	Barn:	<input type="text" value="Barn 1"/>
Ending Date:	<input type="text"/>	Group:	<input type="text" value="010119"/>
			<input type="button" value="Search"/>

Click the Add button. Choose the subgroup if you are entering at the subgroup level. Choose the Room and Pen if entering at the location level. Mortality Date, Qty, Reason and Type are required. Click Save. Total Weight will fill in on Save.

You can use the Edit button to make changes to mortalities and the Delete box and button to delete a line of mortalities.

Treated Deads and New Treatments will not be used unless your company has elected to use that feature.
