Customers can use Sow Card Data Entry in two ways. Using it for the Farrow through Wean events bypasses the need to use Sheet Entry. The other popular option is to do Farrows via Sheet Entry, and then the piglet deaths, fosters, weans, and nurse-ons through Sow Card Data Entry. The example shown will be for Farrow through Wean.

Sow Complex:
 Sow Unit:
 Sow Tag: *(Please use GO after changing the Sow Tag)*

Enter the Sow ID, click Go. (this will load the sow status)

Save (Ctrl-S) Add Rows: Add (Ctrl-A)

Farrow:

1				0	0				<input type="checkbox"/>	

If you have completed the Farrows via sheet entry and want to do the remaining events thru Sow Card Data Entry, enter the Sow ID in the Sow Tag field and click Go. This will load the farrow information and you can enter the remaining events.

Note: Sow Data Entry is not designed for deleting events, please use Sow Individual Event Entry for that purpose.
