You can find your feed delivery by using any of the Search criteria in the grid. If you want to search by Diet, the Feed Mill does need to be chosen. Other criteria does not require the Feed Mill to be chosen. However it will simplify and speed up your search to use multiple criteria.

Enter your search criteria and click Search. Your loads will come up below. Click Edit on the load you want to work with. You can also delete loads from this screen by checking the Delete box and then clicking Delete Records.

This will take you to the Feed Delivery tab for that load.

The top section is the load information. All fields except the Feed Mill can be changed. Diet Qty and Diet Cost are changed by editing Ingredient information. See below.

Make your changes to the load information and click Save.

Note this screen also includes import information, date created and by who, Feed Bin, among other information.
